

SEAL®

Wide Format Laminators

The SEAL® 54 Base

The SEAL 54 Base laminator represents SEAL's latest offering to the rapidly expanding digital display market. Ideal for mounting and laminating pressure-sensitive solutions up to 55.1" (1400mm), this machine represents a flexible package at an affordable price, without compromising functionality.

The SEAL 54 Base is a pressure-sensitive machine with heat assist on the top roller to provide superb results with a wide range of materials. Whatever the experience of the operator, the SEAL 54 Base will prove to be a simple machine to use. It will deliver genuine flexibility and high performance levels for the small to medium sized end user.

Great capability at an affordable price makes the 54 Base ideal for sign makers. It will enable these users to finish their images and create more applications; thereby, generating greater profitability. This laminator is also suitable for small to medium display based businesses who want to provide a wider range of applications and have no need for an encapsulating machine.

The SEAL® 62 Pro

The SEAL 62 Pro Series is the latest generation professional laminator offering industrial performance at exceptional value. With fully adjustable temperature, speed and pressure settings the 62 Pro is ideal for an experienced user who requires a highly versatile laminator.

The SEAL 62 Pro Series is capable of running a wider range of media and can generate higher process speeds. A perfect fit for owners of lower-end manual pressure laminators, looking to upgrade to a professional production machine.

Capable of mounting, laminating and encapsulating prints up to 61" (1550 mm), this series of machines can be used with the extensive range of SEAL laminating films, adhesives and substrates. The SEAL 62 Pro Series feature unique design elements such as combi-material shafts and flip-up pull rollers* thereby maximizing versatility and minimizing waste without compromising its user-friendly nature. Real features with real value will lead your finishing department to say "WOW!"

The SEAL® EP 42

The SEAL EP 42 is a high-speed, multi-functional machine for hot and cold mounting, laminating and encapsulating. Capable of processing up to 42 inch wide prints and 1/2 inch thick substrates, the EP 42 effortlessly mounts and laminates at speeds of up to 13ft per minute*. Hot and cold programmable settings for regularly-produced applications and in-line cutters, add to the wide feature list of this action-packed, yet affordable machine.

The EP42 is easy to use and is ideal for producing a wide variety of top quality applications:

- Rigid Indoor Displays • Rigid Outdoor Displays • Flexible Indoor Displays • Floor Graphics • Backlit Displays • Pop-Up Displays

The SEAL® Ultra Series Laminators

Compact and easy to use, the SEAL® 62 and 44 Ultra Series Laminators are an ideal first laminator for businesses introducing image finishing. It's also a good complementary machine for those wanting to add to existing laminating services. It can handle a broad range of applications and materials up to 61 inches (1,065mm) wide, allowing you to quickly and professionally finish rigid and flexible indoor displays and floor graphics.

The professional features of the SEAL Ultra Series assure easy operation and high-quality output for every project. You can control the temperature settings and film tensions for use with a range of films and adhesives, for an even, smooth finish. Auto-grip shafts make quick work of loading your materials and the silicone-coated rollers make the whole process simple and easy to clean up afterwards.

To assure the highest level of results for your projects, we recommend you use the SEAL Ultra Series Laminators with the extensive range of laminating films and adhesives from SEAL Brands. And for the ultimate in simplicity, try ProSeal™ pouch boards and pouches.
