Edge & Edge2 Color Foils

ALL ITEMS ON THIS PAGE ARE

GerberColor Spot Series

Spot foils have smooth, consistent pigments that match popular vinyls, films, inks and paints. They are ideal for both interior and exterior graphics printing for commercial and industrial applications. They can be used separately, in conjunction with process and transparent color foils or overprinted to create custom colors, patterns, face and shade effects. They are also cost-effective and a time-saving alternative to a four-color process for one, two or three-color jobs and offer color matches that cannot be achieved with a four-color process.

IIMAK DuraCoat Color Foils for Edge & Edge2

DuraCoat Foil Cartridges & Refills

Save money by using DuraCoat refills! Cartridges can be purchased once and then refilled for a lower cost per square foot - without sacrificing quality.

No more wrinkled foils - attached take up core ensures perfect alignment every time. Exclusive anti-static backcoat helps reduce particle attraction during the printing process - the leading cause of printhead damage. UV, Chemical & Weather-resistant - resulting in 3-5 years of outdoor life. Provide excellent detail, fine line and halftone graphics. Every ribbon is supplied with a free printhead cleaner. Patented End-Sense Gauge signals the end of ribbon, to avoid running out during print jobs.
