

Premade Polly & Super Polly Banners® with D-Rings

Polly Banners with D-Rings

Polly banners are a single sided, hemmed banner ideal for those less expensive jobs that need to be done in a hurry and hold up for your customers in OUTDOOR conditions. Most popular with vinyl graphics but you can also apply solvent based enamels and screen inks to this banner. The tear strength is greater than 10 oz vinyl banners (30 psi). Polly banners come with D-Rings which are stronger than grommets found on most banners.

Super Polly Banners® w/ D-Rings

Ideal for those jobs that need a banner that is very strong and hold up for your customers in OUTDOOR conditions. Most popular with vinyl graphics but you can also apply solvent based enamels and screen inks to this banner. The tear strength is greater than 18 oz vinyl (60 psi). Super Polly banners also come with strong D-Rings just like the Polly banners.

Premade Banners with Grommets

Premade Banners

Premade vinyl banners are 10 oz in weight, single-sided, hemmed and attached with grommets on each corner. They have a smooth surface for vinyl, paint or screen printing applications. The paints must be vinyl receptive or the banner must be prefinished with an enamel receptive coating when using oil based paints.
