Anchor Sandblast Stencils

Superior blast resistance, easy cutting, clean transfer

Style 111 - A hand-cut medium-tack stencil for preprinted or soft wood surfaces. When blasting raw wood, use Anchor filler #211.

Style 116 - High-tack computerized sign-making machine stencil for raw woods and urethane foamboard. Not for on soft wood, preprinted, pretreated or glass surfaces.

Style 117 - Medium tack version of Style #116, for pretreated and preprinted surfaces, glass, tile and pretreated urethane foamboards. Excellent for soft woods without the risk of surface lift.

Style 120 - A hand-cut multi-purpose, medium-tack stencil for shape and depth carving in glass, tile, pretreated urethane foamboard and plexiglass, and for pretreated, preprinted or soft woods. No fillers are required, saving time on application and cleanup.

Style 125 - Hand cut high-tack stencil for raw wood and urethane foamboard without fillers or spray adhesives. Not for use on some woods without testing a sample or on preprinted, pretreated or glass surfaces.

Style 128 - 18-mil hand-cut glass stencil for glass etching, wood, tile, acrylic and pretreated urethane foamboard without residue. Conforms and holds securely to curved and irregular surfaces.

Style 129 - A medium-tack computer stencil. A polyester film between adhesive and rubber holds centers of graphics in place, eliminating transfer tape. 15" can be used on most computer cutters, but the 30" will work only on plotters with a standard 1/2" on center sprocket or a friction-fed system.

Style 153 - For friction-fed cutters. Stencil for pretreated and preprinted wood, urethane foamboard, glass, tile and acrylic. No sprocket holes.
