

# Ultra Violet Printing!

**Mimaki™**

## Making Millions with Mimaki UV Printer Technology!

- Vinyl Wraps for beginners
- See how easy it is to print on rigid substrates like Coroplast, Dibond, Metal, Wood, Glass and Acrylic
- See how people have made millions of dollars printing on mobile phone cases and promotional products
- Learn how to print photographic images to acrylic for awards and trophies

## Meet our most popular wide format flatbed UV printer:

The Mimaki JFX200-2513 wide format, small-footprint flatbed prints onto thick and diverse indoor/outdoor substrates. Suited for backlit displays, signs and posters, interior décor, glass and metal decorative panels and more. Its 4'x 8', landscape-oriented format is small enough to fit into most sign and graphic print shops. UV-LED lamps offer reduced energy consumption and a longer lamp lifetime.

### JFX200

Industry leading flatbed UV-LED printer
